Health Insurance Expense Request
2015-2016

Student’s University ID: □□□□□ - □□□□□□□ or SIS ID: □□□□□□□

Select Student Type: Graduate ___ Undergraduate ____ BIS ____

Student Name:____________________________________________________________________________________ (Please print legibly) first middle last

Federal regulations give Student Financial Services the ability to adjust a student’s Cost of Attendance (COA) on a case-by-case basis for the purchase of a health insurance plan. The maximum COA increase for the purchase of a student health plan is $2,613, which is the cost of the university’s student health insurance plan, administered by Aetna Student Health. You are not obligated to choose coverage with the Aetna Student Health, but should you choose another provider, your COA increase will be limited to $2,613. If your medical circumstances require a specific plan that is more expensive, you must provide documentation from the health plan provider for our office to consider increasing your budget further.

By increasing your COA, you may become eligible for additional loan money in the form of federal Perkins loan, federal loans (Direct Subsidized, Direct Unsubsidized, Direct PLUS (Parent) loans, and/or Direct Graduate PLUS loans) or private student education loans. Direct PLUS and Graduate PLUS loans and private student education loans require a separate application process.

Graduate Students: Once we have increased your COA and if you are eligible for an additional Direct Unsubsidized or Graduate PLUS loan, we will award your maximum loan eligibility. You will receive an email notification of this increase, and your revised awards will be viewable in your SIS Student Center.

Undergraduate Students: If you have already borrowed your maximum Direct Subsidized or Direct Unsubsidized loan eligibility, you will not see additional loans posted to your Student Center. Your only option for additional loans in this case will be a private loan or a Direct PLUS loan. The private loan will not be posted to your Student Center until you have completed the loan application process with your lender and your loan has been certified by our office. The Parent PLUS loan will not be posted to your Student Center until the parent has completed the Parent PLUS loan application process.

The COA for independent undergraduate students and graduate students automatically includes an allowance of $2,613 for health insurance.

NOTE: This process will NOT make you eligible for (more) grant funds. This application is NOT a loan application.

I request my cost of attendance be increased in the amount of $_______________ to cover the cost of a health insurance plan for the 2015-2016 academic year. I understand that this COA increase for the health insurance expense is limited to the cost of my plan, that this increase will only make me eligible for more loan funds, and that these funds are to be used solely for the purpose of purchasing a healthcare plan.
